SERIAL NO. 1

To

C.S. Balasundram Iyer, Esq., B.A.,

Chief Secretary to the Government of Mysore,

Bangalore.

Sir,

With reference to your letter No.G.13126/P.P. dated the 10th January 1921, I have the honour to forward herewith, for information a copy of the report received from the Executive Engineer, Bangalore Division, on the condition of the Syed Ibrahim's Tomb at Chennapatna.

2. The Superintending Engineer, Eastern Circle, has been requested to report the progress made on the repair estimate sanctioned for Rs.319/- in August 1920, and also to submit an estimate for the necessary repairs required during the current year.

I have the honour to be,

Sir,

Your most obedient servant,

R. Sundaramma

For Chief Engineer of Mysore.

Submitted with a draft calling for further information.

REPORT ON SYED IBRAHIM'S TOMB. 18/12/20

1. Tomb and Gumbaz.

These are in good order but require white washing. Doors are to be painted. The foundation seems to have setteled a bit, hence slight cracks are visible.

2. Bandarkhana.

This building requires the annual repairs very badly. The layer of it is left without repairs, the costlier would be the repairs

3. Langarkhana.

The roof is leaky. The annual repairs are very essential.

4. Namaz Khana.

The roof is leaky. Walls dirty and doors and windows requ: paint badly.

5. Nagarkhana

This is at the entrance and a storied building. The floor has cut up a good deal. One of the gate shutters require repairs. White washing and painting are necessary.

6. Compound Wall

Only white washing and sundry repairs are required.

7. Devankhana.

This is a katcha building covered with pot tiles. It is leaky and dilapidated. Requires thorough over-hauling. The walls are cracked and bent. Stairs are to be inserted while ~~rebuilding~~ rebuilding them. Usual repairs are needed.

8. Musafarkhana.

This also has to be white washed and the doors and windows painted and repaired as well.

9. The open yard inside not being paved, gives room for accumulation of muddy water in rains 4 or 3 windows are required to admit more light into the rooms.. This also requires annual repairs.

The inmates complain that they want a compound wall around to have their Gosha system and prevents uninterrrupted

also complain that inspections of this kind have not done over material good to them and to their buildings.

It is said an estimate has been submitted for sanction in March 1919.

Sir,

With reference to correspondence ending with your letter No.G.17114/P.P. dated the 3rd March 1921 calling for certain information in connection with the repairs to the - Syed Ibrahim's Tomb at Channapatna, I have the honour to -- state that it is reported by the Executive Engineer, Bangalore Division that the item of repairs referred to in the report of the Executive Engineer forwarded with this office No.B.633 of the 20th January 1921 are the same as those for which estimate were sanctioned in August 1920. The work as per sanctioned estimate was all carried out in January 1921. The defects noticed are the same for which estimates have already been --- sanctioned and since ~~reported~~ repaired. It is reported that the works were commenced in January 1921 with a view to do them after the rainy season was over.

2. The condition or the tomb is now in fair order.

I have the honour to be,
Sir,
Your most obedient servant,

For Chief Engineer of Mysore.
